About Us

About Us

The DVC Group has served society through various ventures for more than 100 years. Peepal Tree, the Educational Wing of DVC Group, was established in 2015 and is a group of premier foundation educational institutions that offer quality preschool education, daycare, activity centres, and after school programmes.

We encourage children to reason, think beyond the usual, and enjoy learning. The **9i Approach** underlines that our programmes foster an engaging, stimulating, exploratory, and fun environment suitable for children's growth in their early years.

Vision

Our vision is to be acclaimed as a group for nurturing the children holistically in the foundational years who will grow up as responsible global citizens, drive the country's growth by uplifting the community, and build a closely-knit society.

Mission

Our mission is to provide high-quality early childhood education that develops 21st-century skills through modern learning practices and create an environment where children can think, reason, and become lifelong learners.

Philosophy

At Peepal Tree, the philosophy- Education for Life, is at the heart of all our activities. To carry forward this philosophy and shape the future of children, we understand that parents and teachers play the foremost part during the foundational years.

Our teachers are affectionate and caring. They also empower parents to ensure that children develop holistically. An ideal environment both at school and home can help children understand their true potential.

9i Approach

Experiences in the foundational years create the blueprint of a child's life. A child's mind is absorbent and is greatly influenced by the environment he/she is in. To augment their potential and build 21st-century skills in children, the 9i Approach Curriculum at Peepal Tree is diligently crafted by adapting to the latest pedagogies and research.

Our teaching methodologies are inspired by Dr. Howard Gardner's theory of 'Multiple Intelligences', Friedrich Froebel, and Maria Montessori.

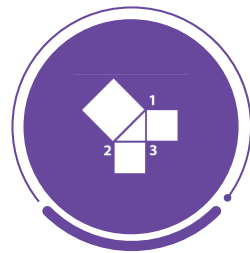

Our curriculum is **PLAY-based** and provides for the holistic development of children by blending activities with fun and thereby creating lifelong learners. It is aligned with the recommendations of National Educational Policy 2020 and is multifaceted, interdisciplinary, mindful, and experiential-based. The success of the programme is reflected in the periodical assessments by the facilitators. The nine intelligences in the **9i Approach** are:

Language

Phonics as a teaching-learning tool lays foundation for strong linguistic skills. It helps children to associate sounds with letters, letter recognition, reading, and comprehension.

An extensive language programme facilitates the translation of thoughts into expressions. It aims to attain effective listening, speaking, and writing skills.

Logic and Math

A detailed set of activities build up the logical and mathematical skills in children. Creating opportunities to explore, twist, turn, reason, and repeat the pre-math and number concepts help a great deal to be able to perform mathematical operations with ease at later stages.

Interpersonal Skills

The skill of being empathetic towards others, teamwork, leadership, and developing positive relationships are developed in children through the social development activities.

Intrapersonal Skills

Care for self is emphasized through the self-care activities to help children become confident, independent, and resilient.

Music

Music is the first intelligence to develop in a child. Rhymes and music activities help children to appreciate rhythm, remain calm, and learn new concepts.

Bodily-kinesthetic

A developing mind requires movement. Hence, our curriculum integrates learning with bodily-kinesthetic activities for the fine and gross motor development, cross-lateral development (to activate both hemispheres of the brain in a balanced way), yoga, and fun sports. These not only help a growing child to channelize their energies and be fit but also to build long term memory and in overall cognitive development.

Nature

Nature is the best Teacher. Growing up with nature, experimenting with things around, and understanding the world helps a child be an explorer, researcher, inventor, and innovator.

Visual-spatial Skills

Activities on visual-spatial skills help a child to process what they see to understand the spatial relationships between objects and also develop creativity and visualization. When in a peg puzzle, a child can visualize 'which peg will fit where' based on shape and size and place it correctly, is an example of visual-spatial skill development.

Life Skills

Our Life Skills programme, GROW is specially designed to inculcate the values, ethics and for the overall personality development of children.

PROGRAMMES

Peepal Tree offers age-appropriate preschool, kindergarten, daycare and after school programmes for the children in the age group of 1.6 years to 12 years. We understand that every child is unique and has a distinct identity. Our programmes are designed to cater to the developmental needs of children in their growing years for the holistic development.

Our Curriculum, 9i Approach, is play-based and in alignment with the recommendations of National Educational Policy 2020

TODDLERS

Age group: 1.6 years to 2.5 years

What is it to experience a child's world?

Seeing what they are seeing;

Hearing what they are hearing and

Feeling what they are feeling.

It is a beautiful world they live,
and they live in the, "Now."

Toddlers are inquisitive about everything around them and at this stage, their vocabulary starts to build up as they try naming the objects. On the social front, they are still much attached to the primary caregiver and are not comfortable with strangers.

In the toddlers' group, we provide for child-teacher connect to make them feel comfortable, hence we maintain a smaller teacher-student ratio. The 9i Approach ensures development of each child through the activities like play, rhymes and storytelling, kinesthetic activities, art and craft, drama and social skills.

HIGHLIGHTS

Story narrations and puppet shows to build up imagination, visualization, attention span, language, moral values, and virtues

Introduction to picture books for reading readiness Rhymes, music and movement activities to facilitate memory, grasping, and learning.

Toddlers

Learning centre activities to inculcate independent thinking, creativity, critical thinking, observational skills, experiential learning, and intelligence.

Different forms of play e.g. free- play, guided play, role play, dramatic play, indoor-outdoor play, balancing activities for the social and emotional development along with fine motor and gross motor skills.

Bits of Intelligence to touch upon the foundational literacy, numeracy, and cognitive skills.

Curriculum based on integral art to foster aesthetic development. The exploration of colours, understanding textures, and unrestricted artwork is a great way to build connections in the brain and have fun too.

NURSERY

Age group: 2.6 years to 3.5 years

At this stage children's vocabulary has developed enough to express their needs and recite stories and rhymes. Though they are still attached to the primary caregivers but are ready to interact with the new people, provided they are in the environment they are familiar with. It's in this stage that they are curious to explore their surroundings but are unaware of the risks attached to them.

Our Nursery programme provides the transition from the known to the new environment. 9i Approach enables a child to develop socializing, exploring, experimenting, logical thinking, physical development, and language skills through a theme-based curriculum and activities in a fun-filled manner.

HIGHLIGHTS

A systematic introduction to foundational literacy through stories, rhymes, phonics, recognition, and writing readiness activities.

Rhymes, music and movement activities to boost memory, grasping, and learning.

Life Skills programme- GROW to develop resilience, gratitude, decision making, sharing skills, working in groups, and manage emotions.

Nursery

Pre-math, number-based concepts to facilitate learning of foundational numeracy, mathematical skills, shapes and logic.

STEM-based activities to stimulate multidisciplinary, inquiry based learning, problem solving, analytical and ownership skills.

Theme time to create curiosity to explore, analyze, discover and create.

Story narrations and repetitions, puppet shows to build up the imagination, visualization, increase attention span, language and its expression.

Different forms of play like free- play, guided play, role play, dramatic play, indoor-outdoor play, balancing activities for the social and emotional development along with fine motor and gross motor skills.

Curriculum based on integral art to foster aesthetic development. Exploration of colours, understanding textures, and unrestricted artwork is a great way to build connections in the brain and have fun too.

Exclusive reading time for reading readiness and increased attention span.

Field trips to nearby places for hands-on learning experience.

JUNIOR KINDERGARTEN

Age Group: 3.6 Years – 4.5 Years

We all act on situations based on our previous experience, which is pre-programmed in our minds. Likewise, our children also save a few programmes in their minds.

Our Junior Kindergarten is designed to help children build on their prior knowledge and experiences to form the concepts and acquire foundational skills. Our programme is 'activity based' with themes comprising both individual and group activities.

9i Approach enables the development of cognitive skills, logical reasoning through sorting, grouping, temporal concepts, and number concepts with mathematical operations. Our learning centres provide both free and guided play, thus enhancing the child's imagination and creativity.

HIGHLIGHTS

A systematic introduction to foundational literacy through stories, rhymes, phonics, recognition, and writing readiness activities.

Rhymes, music and movement activities to boost memory, grasping, and learning.

Junior Kindergarten

Life Skills programme- GROW to develop resilience, gratitude, decision making, sharing skills, working in groups, and manage emotions.

Pre-math, number-based concepts to facilitate learning of foundational numeracy, mathematical skills, shapes and logic.

STEM-based activities to stimulate multidisciplinary, inquiry based learning, problem solving, analytical and ownership skills.

Theme time to create curiosity to explore, analyze, discover and create.

Story narrations and repetitions, puppet shows to build up the imagination, visualization, increase attention span, language and its expression.

Different forms of play like free- play, guided play, role play, dramatic play, indoor-outdoor play, balancing activities for the social and emotional development along with fine motor and gross motor skills.

Curriculum based on integral art to foster aesthetic development. Exploration of colours, understanding textures, and unrestricted artwork is a great way to build connections in the brain and have fun too.

Exclusive reading time for reading readiness and increased attention span.

Principles of coding, without device, to develop the skills of following instructions and retention of their sequence

Field trips to nearby places for hands-on learning experience.

Senior Kindergarten

SENIOR KINDERGARTEN

Age group: 4.6 years to 5.5 years

An effective Kindergarten develops essential skills to be independent, knowledgeable, confident, and to respect self and others.

Our Senior Kindergarten programme fosters fullness of experience to children in Language - by providing language rich environment; Science - by giving children opportunities to explore, experiment, and discover through hands on learning activities; Maths - by the concepts of pre-math, numbers, counting and mathematical operations thus creating the curiosity and zeal of exploring; Life Skills- through the life skills programme GROW for a confident transition to primary school

HIGHLIGHTS

Exclusive reading program to enhance comprehension skills and develop interest towards reading.

Rhymes, music and movement activities to boost memory, grasping, and Learning.

Number and pre-arithmetical concepts to facilitate learning of mathematical skills, 3D shapes, basic geometry and logic.

Senior Kindergarten

Life skills Program to develop resilience, gratitude, decision making, sharing skills, working in groups, and manage emotions.

STEM-based theme activities to stimulate multidisciplinary, inquiry based learning, problem solving, analytical and ownership skills.

Story narrations, puppet shows, show and tell activities to build up the imagination, visualization, increased attention span, language and its expression.

Different forms of play like free- play, guided play, role play, dramatic play, indoor-outdoor play, balancing activities for the social and emotional development along with fine motor and gross motor skills.

Curriculum based on integral art to foster aesthetic development. The exploration of colours, understanding textures, and unrestricted art work is a great way to build connections in the brain.

Principles of coding, without device, to develop the skills of following instructions and retention of their sequence.

Field trips to nearby places for hands-on learning experience.

DAYCARE

Age Group: 1 year – 12 years

In our daycare, we create a homely environment to complement mother's affection. Our trained staff understands the importance of providing a safe, enriched and secured atmosphere to children for their development. The Life Skills Programme, GROW, helps children to be independent, self-reliant and learn the values, ethics which enhances their personality.

Children are also engaged in guided play, rhymes, songs, story time and games, thus helping working parents to maintain a productive and stable work life.

HIGHLIGHTS

Dedicated and trained staff to provide a caring environment

Fun activities to keep children engaged and happy.

Healthy, fresh and nutritious meals cooked inhouse for children to meet their nutritional needs of growing period. Monthly menu is shared with parents

Ample resting place to restore their energy

Discrete space and time for children to work on their homework and school assignments.

Daycare

Life skills Programme to develop resilience, gratitude, decision making, sharing skills, working in groups, and manage emotions.

STEM-based theme activities to stimulate multidisciplinary, inquiry based learning, problem solving, analytical and ownership skills.

Story narrations, puppet shows, show and tell activities to build up the imagination, visualization, increased attention span, language and its expression.

Different forms of play like free- play, guided play, role play, dramatic play, indoor-outdoor play, balancing activities for the social and emotional development along with fine motor and gross motor skills

Regular interaction with parents to discuss the well being of their children.

After School Programme

AFTER SCHOOL PROGRAMME

After school programmes are a great way to explore, create interest, and nurture the hobbies. Research says that hobbies are a great source of bringing in mindfulness, focus, over all well-being, and relaxation. If hobbies are practiced from early years, children would grow up to be more balanced, calm, and stress free.

Children have the option to choose what they wish to learn more than what is set by curriculum and stimulate their interest.

HIGHLIGHTS

Opportunity to explore and develop interest of children in fields other than regular academics.

Effective utilization of after school hours as children stay away from devices.

Makes learning more fun as these programmes are experiential based.

Flexibility to choose among programmes that may be related to STEM, language, soft skills, music and art, bodily-kinesthetic etc

Mother Toddler Programme

MOTHER TODDLER PROGRAMME

Mother Toddler Programme is a specially designed "MommyChild" programme to share motherhood experience and unlock their child's imagination.

Through these programmes, mothers' step into amazing learning world of toddlers and equip themselves to nurture their child's growth.

HIGHLIGHTS

Strengthens the bond between mother and the child.

Lays the foundation to develop the emotional, psychological, social, motor and intellectual skills of the toddlers.

It also introduces toddler to the school environment with the support of their mother.

And above all it helps in instilling the lifelong love of learning.

SUMMER CLUB

Summer vacation is the time for boundless excitement for a child. It is a much-needed break from the academic year where creativity, adventure, thrills, and smiles are the top priority. **Summer club @ Peepal Tree** is a way to provide an enthralling environment to explore different things and discover new hobbies or passions.

Gift your child an exclusive membership of Summer Club @ Peepal Tree to make their Summers filled with fun and memories.

HIGHLIGHTS

Opportunity to explore and develop interest of children in fields other than regular academics.

Effective utilization of after school hours as children stay away from devices.

Makes learning more fun as these programmes are experiential based.

Flexibility to choose among programmes that may be related to STEM, language, soft skills, music and art, bodily-kinesthetic etc

A Day at Peepal Tree

A DAY AT PEEPAL TREE

The schedule of the children in a day revolves around activities that are engaging, build up skills and are fun. Have a sneak peek to see how our day rolls and experience the environment a child looks for.

Arrival

The day begins with a warm welcome of children to school and greeting each other. We wish "Good Morning" and create a very Happy Morning for all.

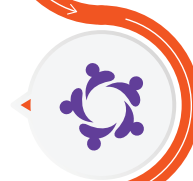

Prayer

We get together at the prayer time to thank and seek the blessings of the Almighty.

Circle Time

Circle time is the time to warm up and set in cheerfulness, freshness and excitement for the day. We discuss the calendar, weather, sing rhymes, exercise, and are ready for the day ahead.

Theme

To enhance cognitive development and categorize learning, we divide months into different themes. Theme time stimulates and builds up curiosity about different aspects of life and the world around us. Theme-based activities and celebrations month on month create a range of experiences for children.

Snacks Break

It is not just to have a break to fill the abdomen; it is also about nutrition. We follow a menu to ensure that.

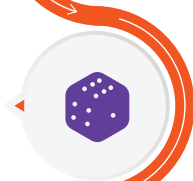

Literacy

"The more you read, the more things you will know. The more that you learn, the more places you will go" - Dr. Seuss. Our literacy time is dedicated to developing foundational literacy skills and inculcating the love for reading, speaking, and listening through 'Comprehensive Reading Programme'.

Numeracy

Mathematical skills are best understood when explored, twisted, and reasoned through play and Montessori materials. Numeracy time involves an age-appropriate introduction to logical skills, pre-math concepts and mathematical operations.

Learning Centre

Learning Centre Time is a time assigned to independent and self-learning activities. Children explore, create, experiment, design and practice with play and Montessori materials.

Play Time

Absolute learning occurs when children are on the grounds playing, interacting, making castles, and splashing water. Here we enable our little ones to develop gross and fine motor skills and social and life skills.

Wind-up

Time to get home after a fun day at school

SCHOOL PLACEMENTS

It is our constant endeavour to provide our children with the best opportunities and facilities during their preschool years and ensure a smooth transition from Kindergarten to Grade 1.

To facilitate admission in mainstream school after the completion of kindergarten, Peepal Tree has collaborated with a few of the leading schools. Kindly check with your centre for the tieups.

Milestones Achieved

MILESTONES ACHIEVED

2015

- Foundation year of Peepal Tree Group of Institutions
- Launch of 2 schools

2016

- Peepal Tree Preschool and Daycare instituted in Akshayanagar, Bangalore

2017

- Commencement of Peepal Tree School
- Peepal Tree Early Childhood Education and Daycare, Akshayanagar, Bangalore receives certification for quality operations by Early Childhood Association, India

2018

- Publish and copyright registration for books of Preschool and Kindergarten.

2019

- 100% results by the first batch of Grade 10- Peepal Tree School
- Hall of Fame Awards "Top 50 Non-Franchised Preschools in Asia" by Early Childhood Association, India
- Business Connect accolades Peepal Tree as "Top 10 Preschools in India"
- Education World Grand Jury Awards adjudged Peepal Tree # 5 in India in the category of **Reading Culture**
- Establishment of Peepal Tree School

2020

- Hall of Fame Awards "Top 50 Non-Franchised Preschools in Asia" by Early Childhood Association, India
- Launch of Peepal Tree Preschool and Daycare, Electronic City, Bangalore

2021

- CED Foundation-Global honours Peepal Tree with "Global School Award-2021"
- Launch of Franchise Division
- "Emerging Franchisor Of The Year- Preschools" Award by Franchise India
